

Limited Product Warranty

VISARA INTERNATIONAL (VISARA) warrants the Product, if purchased and used in the continental United States, Alaska, Hawaii, or Puerto Rico, to be free from defects in workmanship and materials during the Warranty Period. VISARA does not warrant, however, that the operation of the Equipment will be uninterrupted or error free. The Equipment must be used for the purpose, in the environment, and at the usage levels specified by the manufacturer at the time of sale.

Requests for Service must be received by VISARA within the Warranty Period. Proof of Purchase will be required to validate warranty.

VISARA warrants that all services will be performed in a professional, competent and businesslike manner.

OBF/DOA Failures

An Out-of-Box-Failure/Dead-on-Arrival (OBF/DOA) failure must be reported within 30 days of shipment from Visara. If the unit cannot be brought to full and complete functionality a new unit will be issued. If Visara determines that the failure can be fixed, and the unit restored to new condition via on-site repair, then only new parts will be used for the repair. In either case, the customer will not be charged.

OBF/DOA reported after 30 days will entitle the customer to repair of units via the terms of the warranty sold to the customer. This service will be at no charge to the customer.

For OBF/DOA reported after 30 days *and* after warranty term has expired, repair and/or replacement will be on a T&M basis or at Visara's current rate for a replacement unit (new or refurbished).

If the OBF/DOA is a result of shipping damage, the customer must report the damage to Visara and to the carrier at the time of receipt and the customer must retain the original packaging until instructed by Visara and/or until Visara's carrier has had an opportunity to inspect the damaged carton. Upon completion of the inspection, the standard OBF/DOA policy will apply. If a unit has been re-transported by a customer to another location the customer is responsible for the damages and repair or replacement and will be billed on a T&M basis or at Visara's current rate for a replacement unit (new or refurbished). Units transported under Visara's direction and using Visara's carrier will carry the standard OBF/DOA replacement or warranty repair policy.

Warranty Coverage

Warranty shall cover remedial repair services and parts for all new products, sold by VISARA and VISARA authorized distributors, during the warranty period. Liability is limited to the replacement to the Buyer of a functionally equivalent or upgraded replacement unit. Repair or replacement of the part thereof shall neither extend nor decrease the warranty period.
